### Presentation: Introduction to HTML

---

Homework: Make a simple personal site.

You will be making a site like the one here: <http://lia-c.github.io/>

- Open today's folder: [https://github.com/Lia-C/PrepaTec/tree/master/day1\\_HTML](https://github.com/Lia-C/PrepaTec/tree/master/day1_HTML)
- Check out `lia.html`. This is the code from the example.
- Start with `starter_code.html`
- Use:
  - headings: `<h1>` `<h2>` ... `<h6>`
  - paragraphs: `<p>`
  - line breaks: `<br>`
  - links: `<a href="www.this_is_the_link.com">`
  - images: ``
- Tips
  - Open your HTML in your browser to see what it looks like.
